Legend

Boundaries/Features

- City of Salinas Boundary
- Highway
- Major Road
- Railway
- Waterway

Data Sources

Probable Depth to Groundwater: Geotracker website
 Reported Depth to Clay: Monterey County Water Resources Agency well logs
 Drainage Classification Data: NCSS-NRCS web soil survey
 Aerial photo and City Boundary: City of Salinas May 2002

Shallow Groundwater Data

- 16 LUFT Monitoring Well and Probable Depth to Water (ft below ground surface)

Shallow Clay Layers

- 2 Reported Depth to Clay (ft below ground surface)

* See text for explanation

Soil Drainage Classification

- Excessively drained
- Somewhat excessively drained
- Well drained
- Moderately well drained
- Somewhat poorly drained
- Poorly drained
- Very poorly drained
- Undefined drainage type
- Soil Type Series/Grouping
